

Nguyễn Hồng Phát

Full-Stack Developer

✉ hongphat.js@gmail.com ☎ 0589424815 📍 Tp.HCM, Vietnam

OBJECTIVE

My name is Phat, a Full Stack Developer from Viet Nam. Since I was a student I've fallen in love with computer science, I learned about complex algorithm such as Recursion, Back Tracking, Graph, Greedy and Dynamic Programming since I was 14 and I've taken part in a lot of competitions since then. My highest achievements was first prize of the provincial contest and was 1 of the 6 students present Long An province to take part in the national tournament of Viet Nam. Study at FPT University with 70% Scholarship, I learned about many programming languages and frameworks and graduated with a Very Good degree. With my strong programming skill, I will do my best to bring success to every project that have me allocated.
